Model 41VC

The 41V Vertical Floor/Sill Mount units provide the versatility and performance needed to meet the needs of any hospitality, condominium, or dormitory project, especially in retrofit applications. Often installed under windows or along the perimeter of the room, to discretely provide the necessary room conditioning.

Available EPIC™ ECM Motors reduce operational cost and in room noise, benefitting the owner and the occupant. Custom colors and wood grain finishes are available to match the aesthetic of any project.
