

DESCRIPTION:

- The FFR Ducted Return Filter Rack Connection is an optional accessory for the Horizontal Fan Coil Units Model Series 35FH or 37FH.
- The accessory is required for ducted inlet applications where a filter is also required and ease of accessibility is required.
- The Ducted Filter Connection features a filter rack, which accommodates a 1" (25) standard or 2" (51) optional filter.
- Factory mounted on the induced air inlet of the draw through water coil section.
- A piano-hinged door flap with latch on the side and bottom of the unit accessory allows for easy removal and replacement of the filter.
- The accessory is provided with a nominally sized duct connection collar.

Dimensional Data

Model Series	Unit Size	Inlet Size W x H	Filter Size W x H
35FH	4, 6, 8	20 1/4 x 16 1/2 (514 x 419)	20 x 16 (508 x 406)
	10, 12, 14, 16	35 1/4 x 16 1/2 (895 x 419)	35 x 16 (889 x 406)
	18, 20, 24	52 1/4 x 16 1/2 (1327 x 419)	52 x 16 (1321 x 406)
	30	52 1/4 x 22 1/2 (1327 x 572)	52 x 22 (1321 x 559)
	40	62 1/4 x 22 1/2 (1581 x 572)	62 x 22 (1575 x 559)
37FH	5	20 1/4 x 10 1/2 (514 x 267)	20 x 10 (508 x 254)
	8	35 1/4 x 10 1/2 (895 x 267)	35 x 10 (889 x 254)
	12	52 1/4 x 10 1/2 (1327 x 267)	52 x 10 (1321 x 254)
