DESCRIPTION:

1. Material: Corrosion-resistant steel.
2. When Type L is used in a suspended T-Bar ceiling system with tegular ceiling tiles, the 3/8" (10) drop face on the diffuser, is level with the bottom of the ceiling tile, which improves the architectural appearance and performance. Discharge pattern can adjust to 1, 2, 3 or 4-way horizontal, before or after installation. Discharge pattern is adjusted by dropping the perforated face and rotating the pattern deflectors. Diffusers are shipped from the factory with a 4-way discharge pattern.
3. Hinged, removable face for easy access to core and optional damper.
4. Perforated face has 3/16" (5) diameter holes on 1/4" (6) staggered centers (51% free area).
5. Excellent performance in VAV systems.
6. Standard finish is AW Appliance White.
