**NOTES:**

- The Nailor 5000 CTD-F Series has been designed with the architect in mind to provide an unobtrusive high performance ceiling diffuser that utilizes a center ceiling tile matching the surrounding ceiling system.
- The Nailor 5000R CTD-F Series has been designed as a matching return to compliment the supply diffuser. The unit is similar in design but minus pattern controllers. For ductless plenum return applications, the 5000R CTD-F incorporates a light shield to block out light and prevent see-through.
- The 5000R CTD-F Series is designed for use with "Donn Fineline" and "Chicago Ultraline 3500/3600" type narrow regressed T-bar ceiling systems.
- MATERIAL:** Extruded aluminum face with staked and welded mitered corners. Steel pattern controllers and light shield. Light shield is easily removable for installation of ceiling tile (by others).
- FINISH:** AW Appliance white face. Interior of light shield is painted flat black.
